BASF Ludwigshafen TDI Plant Gas Leakage Incident

2016-11-24

PUdaily, Shanghai-On Tuesday (Nov. 22), BASF announced officially that the TDI plant at the BASF SE site in Ludwigshafen has been idled due to a technical defect. The impacted equipment in the closed safety chamber will be analyzed and, if necessary, replaced. Before the plant is restarted, BASF will reexamine all relevant parts as a precaution. As usual, this will be done in cooperation with the respective authorities...[More](#)
